

Get on the Bus

Eurofins Unveils its First Roving COVID-19 Sampling Unit

As communities and governments around the world struggle to meet COVID-19 testing demands, Eurofins is drawing on its unparalleled scientific expertise and technological innovation to expand our worldwide testing scope.

The Eurofins Roving COVID-19 Sampling Bus has capacity to collect up to 300 PCR tests per day. These **local, accessible, versatile** collection centres can park in virtually any location to:

PROVIDE logistical resources in areas that lack collection infrastructure

SUPPORT cities, towns, local authorities and businesses with urgent testing needs

DRIVE samples to local laboratories at the end of collection hours daily

DELIVER 24-48 hour turnaround time

SAFE, SEAMLESS TESTING EXPERIENCE

- Enter at front of bus
- Complete simple administrative check-in
- Move to rear of bus to nurse station for sampling
- Exit at rear of bus
- Bus routinely disinfected between sampling participants

Eurofins is testing for life, committed to delivering end-to-end innovative COVID-19 solutions around the globe through its SAFER@WORK™ and Sentinel™ testing, monitoring, and consulting services.
